Environmental Policy

Synergy Chemical Industries is committed to providing a quality products & services in a manner that ensures a safe and health of our employees and minimizes our operational impact on the environment.

We will operate in compliance with all relevant environmental legislations, and we will strive to use pollution prevention and environmental best practices in all we do.

Our Policy therefore, is to:

- Incorporate environmental concerns and impacts into our decision making process
- Ensure complete regulatory compliance of all existing environment norms
- Minimize our waste and implement reduce/reuse/recycle as much of it as is possible
- Minimize energy and water use within our infrastructure and processes with complete focus on conservation
- As far as is possible, purchase products and services and engage with vendors that do minimum damage to the environment.
- Train, Educate and Inform our employees about environmental issues and impacts
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner
- Communicate our environmental commitment to vendors, customers and the community and encourage them to support it
- Where required by legislation or where significant health, safety or environmental hazards exists, develop and maintain appropriate emergency and spill response programs
